### **DETAILED ACTION**

The applicant has elected Figure 5. Figure 6 is compatible with Figure 5.

Claims 7-9 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected species, there being no allowable generic or linking claim.

### ***Claim Objections***

Claim 10 is objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form. The invention has been defined as a housing for an electrical device. A dependent claim to a device formed by a housing is improper dependent form.

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claim 1 is rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. The claim refers to "a fold-away catch (42)" defined in the specification as retractable catches 42, however, the disclosure is not understood because 42 is not found in

Figures 1 or 4 as referenced on pages 6 and 7 of the specification. It is not understood how the catch 42 in Figure 2 is a "movable part", page 6 line 33, "release the hooks" page 7 line 1 or "are guided" by 44, page 7 line 3.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-6 and 10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The language of the claims must clearly distinguish the elements of the claims. Therefore the "main part" and the "part"; **"a longitudinal direction"** and **"the direction"** in which the hook extends" of must be clearly distinguished. Terms which make the claims indefinite include: "of the type", "it", "whose", "a main part or body" in claim 1, "whose" in claim 3, "it" in claim 4, "one sense" in claim 6. Terms in the claims which lack proper antecedent basis include: "the blocking cover", "the direction" in claim 1, "the ... branch", "the pin" in claim 5, "the first chamber", "the intermediate branch" in claim 6.

Claim 1 is rejected as failing to define the invention in the manner required by 35 U.S.C. 112, second paragraph.

The claim(s) are narrative in form and replete with indefinite and functional or operational language. The structure which goes to make up the device must be clearly and positively specified. The structure must be organized and correlated in such a

Art Unit: 3637

manner as to present a complete operative device. The claim(s) must be in one sentence form only. Note the format of the claims in the patent(s) cited.

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-6 and 10, as presented, are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Crist et al. Crist is cited showing a body 1 with a guide means 4 having a chamber 9 for a catch 17 with stems 18 and a retainer 21 and a cover part 12 having hooks 14.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Streit, Jaeb et al, Oakley et al, Napolitano and Schmidt
